

Bethany Memorial Association Website / Web Application

Features:

- Contact submission form
 - Sends data to email address
 - Sends data to database as a backup
- Photo submission form
 - Stores image files in the cloud
 - Stores image data information in a synced real-time database
- Photo staging area
 - Password protected for administrator only access
 - Loads unapproved image files for approval or deletion
- Public Photo Gallery
 - Loads only authorized image files and image file data from synced databases
 - Displays photos with all submission data (User/Date/Description/Notes)
 - All photos are clickable and load a full size version of the image
- Homecoming Events Section
 - Algorithm to calculate the exact date of the second Sunday of each June, and display the date for next year's homecoming dynamically. You won't ever have to edit it if the tradition remains unchanged.
